

Piotr Burchart

eLearning Technologist

Bollington, SK10 5PX
07506763254
piotrburchart@gmail.com

eLearning Technologist with over 17 years of experience in medical communications and adult education, designing advanced digital learning solutions using tools like Articulate Storyline, Evolve and Adobe Captivate. Skilled in creating engaging, multimedia-rich content that prioritises user experience and accuracy, and adept at integrating gamification to enhance educational outcomes. Collaborate closely with medical writers, instructional designers, and editors to ensure high content accuracy and deliver a product that meets the highest standards while adhering to deadlines.

Employment history

eLearning Technologist,

Amiculum, Mar 2014 -

Jun 2025

Bollington

- Utilise leading authoring software products (including Articulate Storyline, Adobe Captivate and Evolve) to an advanced level to create high-quality eLearning outputs
- Efficiently create professional-quality learner/user interactions and incorporate them into eLearning module builds
- Use the latest authoring techniques to ensure the content is engaging and intuitive, and includes a blend of multimedia and gamification to support engagement further
- Work closely with medical writers, instructional designers and editors to maintain high content accuracy and adherence to client briefs
- Support these functions in developing storyboards that align with good UX and UI principles and include the right blend of multimedia, gamification and copy while complying with relevant industry and wider regulatory guidelines, including EAA
- Quality control of localised assets: skilled at checking locally translated assets for technical issues, formatting inconsistencies and translation inconsistencies/errors
- Support internal and client teams with ad hoc technical support, for example, website testing, LMS/LXP set-up and management, and SharePoint builds
- Support R&D efforts by regularly reviewing the industry literature and event outputs, flagging any crucial developments in authoring and multimedia tools, and using AI securely and optimally to improve efficiencies in content production

eLearning Courseware Developer, Exchange Group, Jan 2013 - Feb 2014

London

- Developing and maintaining materials for all assigned company courses with Adobe Captivate and Articulate Storyline
- Designing assessments and quizzes that measure the effectiveness of training based on the Learning Objectives
- Coordinating and collaborating closely with other designers and Subject Matter Experts (IT/Maths/English/Quality development groups) to create learning content and communications
- Gathering and addressing feedback from multiple sources
- Leading the initial delivery of new courseware to a small audience
- Incorporating relevant data into the development of instructional material and communications according to a standardised format - interactive PDF format for company guides and forms used by employees and learners
- Providing one-to-one and group training for members of staff
- Updating and maintaining published training materials
- Researching learning tools and new solutions
- Moodle Administrator (Learning Management System)

Centre IT Support and Tutor, Exchange Group, Nov 2008 - Dec 2012

London

- Guided IT learners to success, enhancing skills and knowledge
- Ensured data integrity by significantly reducing file risk levels
- Swiftly resolved IT issues, maintaining efficient operations
- Managed network accounts, ensuring seamless user access
- Supervised UK test sessions, ensuring compliance and smooth execution
